Smart Recycling Collection

Make sure to place the blue bin by the curb before 7 a.m. Not an early bird? Put out the bin after 9 p.m. the night before!

The advantages are numerous:

- Any problem can be identified in real-time and resolved, possibly, the same day.
- The transponders installed on the bins allow the City to ensure their traceability.
- The flexibility of this system allows us to offer a weekly collection service and not only every two weeks. You can use it according to your needs.
- Thanks to your efforts, you are helping to reduce the cost of the collection service.

Why put the blue bin at the curb only when it is full?

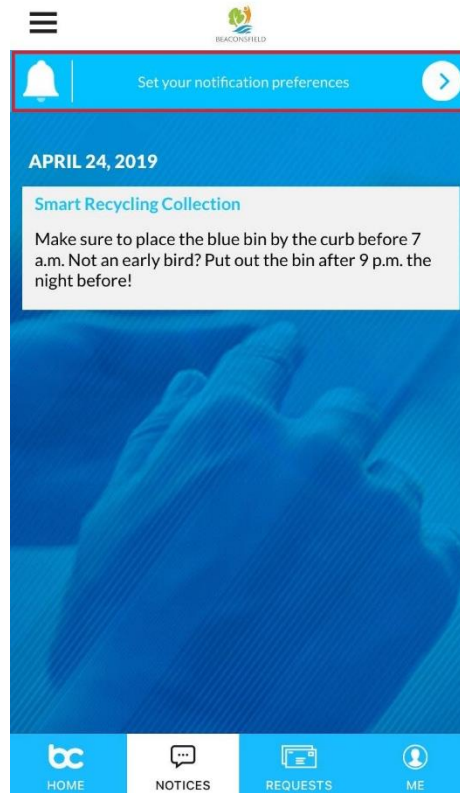

- To reduce GHGs
- To reduce costs

The less frequently you put it out, the more we will save!

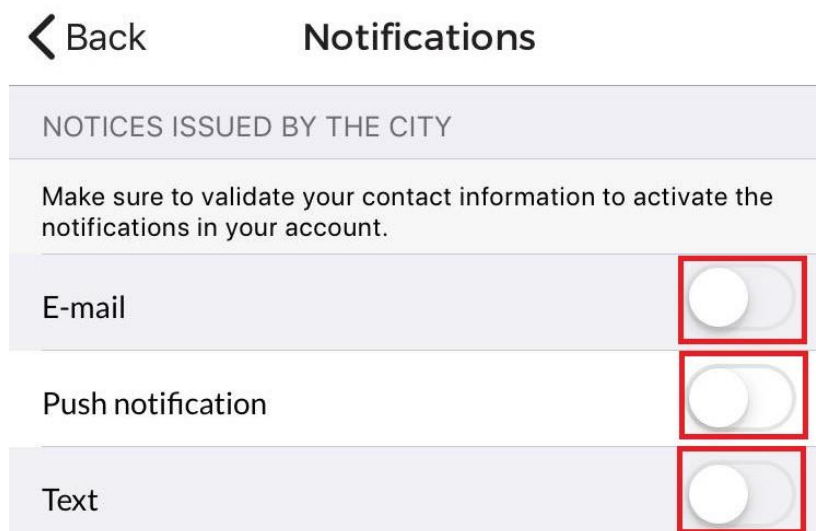

To sign up for notifications:

- From the "Notices" tab, click on "Set your notification preferences"

- You will have to choose your preferred communication mode (email¹, push notification², or text message³). You can choose more than one if you wish
