

Minutes of the Council of Beaconsfield

Minutes of the City of Beaconsfield's regular Municipal Council meeting, held at City Hall, 303 Beaconsfield Boulevard, Beaconsfield, Québec, on Monday, April 20, 2026, at 7:30 p.m.

WERE PRESENT:

Mr. Mayor Martin St-Jean and Councillors Dominique Godin, Marie Léveillé, Robert Mercuri, David Newell, Jason Rossie, Tim Quinn

ALSO PRESENT:

Patrice Boileau, Director General, Nathalie Libersan-Laniel, City Clerk and Director of Public Affairs, Dominique Quirk, Assistant City Clerk

1. OPENING OF MEETING

Mr. Mayor calls the meeting to order.

2. AGENDA

2.1 Adoption of the agenda of the City of Beaconsfield's regular Council meeting of April 20, 2026

2026-04-184 It is moved by Councillor Tim Quinn, seconded by Councillor Dominique Godin and UNANIMOUSLY RESOLVED to adopt the agenda of the City of Beaconsfield's regular Council meeting of April 20, 2026, as presented.

Councillor Mercuri joins the regular meeting after the adoption of the agenda.

5. PUBLIC QUESTION PERIOD

Mr. Mayor St-Jean invites PDQ1 Commander Eric Gosselin to provide updates and information regarding citizen safety in Beaconsfield.

Mr. Mayor officially announces the launch of the public phase of the philanthropic campaign supporting the development of Beaconsfield's future cultural centre. The campaign aims to raise \$2,000,000.

He states that the project's financial framework is solid, supported in part by government funding and the use of City reserves, and also made possible through donor generosity. He announces that \$1,600,000 of the \$2,000,000 goal has already been raised. He highlights and thanks the lead donors, including Mr. Lorne and Ms. Louise Trottier, Ms. Chantal Carrier and Mr. Louis Vachon, Mr. Georges and Ms. Ellen Bourrelle, as well as another family who wishes to remain anonymous. Together, these major donors are reported to have contributed approximately \$1,150,000. He also thanks about fifteen other families and individuals who made significant donations, the campaign ambassadors and participating organizations, and Ms. Caroline Tison for her commitment, energy, and leadership.

Mr. Mayor then presents the campaign as an invitation to the entire community (residents, families, organizations) to take ownership of this future place even before it is built and to be able to say: "I'm part of it." He emphasizes that the cultural centre will be more than a municipal building: it will become an accessible, intergenerational gathering place that fosters ideas, the arts, innovation, learning, and a sense of belonging.

Finally, he announces an incentive: thanks to Mr. Lorne and Ms. Louise Trottier, all future donations will be matched up to a total of \$500,000, doubling the impact of contributions. He invites the public to get involved (financially or through volunteering) and indicates that more details will be shared in the coming days and weeks through the City's communication channels.

Mr. Mayor St-Jean announces the beginning of the public question period at 7:43 p.m.

Minutes of the Council of Beaconsfield

A resident states that, following discussions with the STM, she was told that infrastructure, including bus stops, is not implemented without the City's approval and that there would be no retroactive relocation because the City had been consulted. She asks what "legacy" the Mayor wishes to leave, and who is accountable when a decision imposes an unfair burden on residents. She insists that the stop's location has a significant impact on her privacy.

Mr. Mayor replies that it is too early to speak of a "legacy" and adds that the information presented by the resident appears inaccurate. He states that the City does not have decision-making authority over stop locations. He recalls that the stop is on public property, approximately 20–22 metres from the resident's property, and that visibility from the sidewalk already existed for passersby. He indicates that he will forward the resident's email to a specific STM contact and copy the resident, in order to validate the information and ensure follow-up.

A resident explains that a new stop (linked to the STM's taxibus service) is located near her driveway, making it difficult to enter or exit and is raising concerns about a potential accident, people being present in the evening, and litter. She requested that the stop be moved a few feet to a more appropriate location and states she has not received a response despite calling the STM and the City.

Mr. Mayor replies that he cannot promise a relocation since it is under the STM's authority, not Public Works or municipal Public Security. He invites the resident to leave her contact information so the City can connect her with an STM contact who can respond to her specific request. He also clarifies that this is an on-demand collective taxi service, not a frequent regular bus service, which limits the time people spend waiting at the stop.

A resident asks what was actually discussed between the STM and the City and whether the City gave formal approval for stops and infrastructure. He seeks clarification because the STM claims it discussed the matter with Council and obtained support, while the City says it is not decision-making. He questions the absence of a municipal consultation, comparing it with other projects (e.g., the sound wall) where the City consulted residents. He asks what the City is prepared to do if strong opposition arises or if bus ridership is low.

Mr. Mayor replies that there was no formal approval. Presentations were made in fall 2024 to the administration and a small group of elected officials for information purposes. He states that the STM determines routes under its mandate and that Council generally supports the expansion of public transit in Beaconsfield, including in the Montrose area. Regarding consultation, Mr. Mayor explains the difference between the STM project and the sound wall: the sound wall was a City-initiated project, while the bus project belongs to the STM. He adds that information provided by the STM was confidential and that elected officials' Code of Ethics prohibits the disclosure of confidential information obtained in the performance of duties. He indicates that the City facilitated meetings between the STM and residents and will continue to act as a facilitator. Regarding the possibility of low ridership, Mr. Mayor states that once the REM service begins on May 18, it will be possible to rely on observable data and reassess the situation, keeping an open mind.

A resident asks about potential Canada Post community mailboxes: whether Canada Post will consult the City and residents, how locations will be chosen, and whether the City will be able to communicate information early.

Mr. Mayor states that, at this time, the City does not have detailed information beyond what has been made public through the media. He mentions that in prior rollouts there were consultations with municipalities and the public, and that mailboxes were generally installed on public property. He adds that Montreal would not be part of the first phase, which would provide time before implementation, and that the City will share information when possible, subject to confidentiality obligations.

Minutes of the Council of Beaconsfield

A resident questions the representativeness of the STM's 2022 consultation session due to low participation. She asks on what basis Council claims to support the project if the affected population was not meaningfully consulted. She adds that adding parking at the REM station would be a solution and asks why the City is not speaking out more publicly, like other municipalities, about the lack of parking.

Mr. Mayor states that the area covered by the bus line represents approximately 2,700 potential residents according to the service area. He indicates that proof of ridership will be visible once the service is operational. Regarding parking, Mr. Mayor replies that the City has criticized the lack of parking and agrees the situation is unacceptable, but available space is limited. He gives the example of Kirkland, where an agreement reportedly allowed dedicated spaces as part of a building project.

The President of the Beaconsfield Citizens Association states that STM representatives told him they would not have proceeded with selecting route 211X without Beaconsfield's full cooperation. He adds that the STM told him Windermere would have been a preferred choice, but that Beaconsfield rejected it based on a "technical review." He requests a copy of that review.

Mr. Mayor responds that, to his knowledge, a presentation made in which certain councillors participated concerned Montrose. He indicates the resident may submit an access-to-information request, but that there is no report or document held by the City on that point. He reiterates that the City collaborated with the STM (presentations, discussions, facilitated meetings), raised safety concerns, and is currently satisfied with the STM's technical and operational representations. He adds that once the service is in operation, evaluation will be based on observable findings and data.

Mr. Mayor St-Jean then summarizes and responds to questions received by email.

Mr. Mayor mentions a resident's suggestion to extend the question period beyond 30 minutes. He notes that the current question period exceeded 30 minutes and that Council will remain flexible as needed.

A resident asks for more details about the \$36 million amount referenced under item 20.2 of the agenda regarding renovations at the Recreation Centre. The website reportedly mentions \$5 million. She asks whether the amount includes replacing the Zamboni with an electric model.

Mr. Mayor states that the difference may be due to confusion between parts of the Recreation Centre renovation project (arena renovations and the broader project). He adds that the City already has an electric ice resurfacer, purchased during recent arena renovations.

A resident asks about the City's annual costs related to the STM budget. She wants to know how the cost-sharing is calculated and whether there is monitoring, given the low number of users.

Mr. Mayor explains that the City's share is calculated by the Agglomeration and billed based on fiscal potential, not population. He states that Beaconsfield's share is approximately 0.91%, which results in a cost of about \$7.26 million. He adds that the City does not receive detailed STM reporting on ridership or local impacts.

A resident asks why a permanent stop sign at the Montrose–Walpole intersection was removed and replaced with temporary stop signs, and whether a plan and costs exist; she notes she did not receive a requested document regarding intersection safety evaluations.

Mr. Mayor states that the signs were not removed by the City. Internal verification confirms that no City employee authorized or carried out the removal, and the City believes it was theft or vandalism. Temporary stop signs were installed pending permanent replacement. He adds that the City has a structured evaluation process based on applicable standards.

Minutes of the Council of Beaconsfield

A resident asks that only non-toxic products be used under the contract to protect ash trees. She recommends strict enforcement of by-laws and policies to protect the environment, trees, and wetlands.

Mr. Mayor recalls that the City has had an emerald ash borer management program since 2016 with targeted treatments aimed at minimizing impacts on the environment, and notes that the City has by-laws regarding the protection of trees and wetlands, some of which were discussed earlier during the public consultation.

The question period ends at 8:54 p.m.

45. URBAN PLANNING
- 45.1 Request for a minor exemption for the property located at 472 Coronet
-
- 2026-04-207 CONSIDERING THAT a request for minor exemption was presented to the Planning Advisory Committee meeting held on March 31, 2026, for the property located at 472 Coronet;
- CONSIDERING THAT the request for minor exemption is to authorize a sidewalk located in the left lateral yard between the wall of an attached garage and a lateral property line to have a width of 2.20 metres, whereas the zoning by-law requires a strip of a minimum width of 2 metres along the property limit in the side yard of a single-family residence must be preserved and maintained with grass, vegetation, crushed stone or river stone, and that only a sidewalk located between the wall of an attached garage and a lateral line of a property may encroach by a maximum width of 1 metre into the strip, which represents an encroachment of 0.20 metres into the strip;
- CONSIDERING THAT a minor exemption application must respect the conditions enumerated in section 2.9 in By-law BEAC-044 concerning minor exemptions;
- CONSIDERING THAT the Planning Advisory Committee considers that the conditions listed in By-law BEAC-044 are fulfilled;
- CONSIDERING the Planning Advisory Committee's recommendation to APPROVE the minor exemption request to authorize a sidewalk located in the left lateral yard between the wall of an attached garage and a lateral property line to have a width of 2.20 metres, whereas the zoning by-law requires a strip of a minimum width of 2 metres along the property limit in the side yard of a single-family residence must be preserved and maintained with grass, vegetation, crushed stone or river stone, and that only a sidewalk located between the wall of an attached garage and a lateral line of a property may encroach by a maximum width of 1 metre into the strip, which represents an encroachment of 0.20 metres into the strip for the property located at 472 Coronet;
- It is moved by Councillor David Newell, seconded by Councillor Dominique Godin and UNANIMOUSLY RESOLVED to APPROVE the request for a minor exemption to authorize a sidewalk located in the left lateral yard between the wall of an attached garage and a lateral property line to have a width of 2.20 metres, whereas the zoning by-law requires a strip of a minimum width of 2 metres along the property limit in the side yard of a single-family residence must be preserved and maintained with grass, vegetation, crushed stone or river stone, and that only a sidewalk located between the wall of an attached garage and a lateral line of a property may encroach by a maximum width of 1 metre into the strip, which represents an encroachment of 0.20 metres into the strip for the property located at 472 Coronet.
- 45.2 Request for the approval of the Site Planning and Architectural Integration Programme (SPAIP) relating to a building permit application to modify the already approved plan at 65 Devon
-
- 2026-04-208 CONSIDERING THAT on August 25, 2025, Council adopted resolution 2025-08-365 approving the site planning and architectural integration programme for a building permit application at 65 Devon;
- CONSIDERING THAT after the resolution was adopted, an application to modify the approved plan was filed;

Minutes of the Council of Beaconsfield

CONSIDERING THAT this modification application must respect the applicable objectives and criteria included in By-law BEAC-098 on Site Planning and Architectural Integration Programmes (SPAIP);
