91. **QUESTION PERIOD OF THE PUBLIC CONSULTATION**

Mr. Mayor announces the beginning of the public question period at 7:07 p.m.

A resident asks whether the issue addressed by By-law BEAC-188 exists only in a specific area or also affects the rest of the City. She would like to know the extent of the work that will be required.

The Mayor replies that the by-law does not relate to a specific project, but rather to targeted work that will make it possible to implement the measures required to accommodate the additional flows into the sanitary sewer system associated with new construction.

Ms. Mireille Gascon adds that the anticipated interventions should be relatively localized. She notes that possible solutions could include, for example, upsizing, capture measures, or other similar technical measures. She specifies that the studies to be undertaken will make it possible to identify the situation and determine the most appropriate solution.

The question period ends at 7:11 p.m.

95. **CLOSING OF PUBLIC CONSULTATION**

It is moved by Councillor Robert Mercuri, seconded by Councillor Tim Quinn and UNANIMOUSLY RESOLVED to close the public consultation at 7:12 p.m.
