2. **AGENDA**

2.1 Adoption of the agenda of the City of Beaconsfield's regular Council meeting of August 24 2026, at 7:30 p.m.

2026-08-385 It is moved by Councillor Dominique Godin, seconded by Councillor Marie Léveillé and UNANIMOUSLY RESOLVED to adopt the agenda of the City of Beaconsfield's regular Council meeting of August 24 2026, at 7:30 p.m., as presented.

5. **PUBLIC QUESTION PERIOD**

Commander Jean-Sébastien Masson from PDQ1 is invited to provide a status report and statistics relating to Beaconsfield and the Greater Montreal.

Mayor St-Jean provides an update on the progress of two major municipal projects. The expansion and renovation work at the Recreation Centre is progressing according to schedule. The pool will remain open until the end of 2026 and will then close in early January 2027 to allow for renovation and reconstruction work. It is expected to reopen for the 2028-2029 aquatic season. In the meantime, the other Recreation Centre facilities will remain accessible, and the activity programming will be available online. Construction of the future Cultural Centre is advancing well. The demolition work has been completed, and the foundation work and pouring of the concrete slabs have begun, making it possible to anticipate the construction of the building's structure in the near future. The Cultural Centre fundraising campaign is ongoing, and the total amount raised will be announced shortly at the October Council meeting.

Mayor St-Jean also invites residents to a meeting to be held on September 28 at the Beacon Hill chalet. This meeting will provide an opportunity to directly discuss ongoing projects and municipal priorities. He also mentions that other public meetings will take place this fall on youth participation and engagement, the redevelopment of Windermere Park, the review of planning and zoning by-laws, and the development of the City's next strategic plan. Residents' participation in these initiatives will help guide municipal decisions and shape the future of the community.

Councillor Quinn highlights the lasting impact of the Beaconsfield Rugby Club, founded 44 years ago by 15 local youths. Since then, thousands of people have benefited from the organization and built lasting relationships. He emphasizes the importance of community organizations and congratulates the senior men's team on winning its second Super League championship in three years.

Mr. Mayor announces the beginning of the public question period at 7:54 p.m.

Minutes of the Council of Beaconsfield

A resident asks a question on electric scooters, mentioning concerning behaviour on Westcroft (slope and speed) and near the railway tracks crossing. She asks whether Public Security can raise awareness among youth and whether the City can provide information to parents (Contact magazine or municipal emails).

Mr. Mayor replies that Public Security likely does not have the mandate to intercept moving vehicles, but that the City will check what can be done, including in collaboration with the SPVM. He is open to improving communications about the applicable rules, including through a future Contact issue or via “Beaconsfield updates” newsletters.

A resident from St-Andrew expresses opposition to a proposed new structure at 111 St-Andrew, citing expected noise, dust and disruption, and asks that if approved, the new house be similar in size and style to avoid another “mansion.”

Mayor St-Jean notes that the item is on the agenda and that the result of the vote will be known later during the meeting.

A resident introduces himself and expresses frustration about low attendance at meetings and says he does not receive concrete answers.

Mayor St-Jean asks him to state a specific question; the resident chooses to sit down without asking a specific question.

A resident raises concerns about pesticides and fertilizers (including biological products), stating she experienced negative effects and asking that the City not allow any pesticides.

Mayor St-Jean clarifies that she is requesting the City consider not allowing any type of pesticide and invites her to leave her documentation with the City Clerk.

Mayor St-Jean then proceeds with the questions received in writing.

A resident questions bulky-item collection, stating it is unfair that taxpayers pay for the collection of renovation debris, and suggests reminding residents about recycling and donation options.

Mayor St-Jean replies that bulky-item curbside collection is intended for small quantities (about 2 m³) and that contractors and property owners are responsible for renovation debris. He states that collected materials go to a sorting centre for recycling. He mentions the City’s awareness efforts (summer campaign, flyers) and a webpage for a local reuse organization and says a reminder email could be sent before collection days.

A resident asks about increased professional fees for the cultural centre (agenda items 20.5 and 20.6), whether those increases remain within the approved budget and whether they are funded through contingencies.

Mayor St-Jean responds that the “professional services / contingency” line appears in the schedule to the loan by-law (approximately \$1.28 million) and that the amounts requested are within the amounts originally budgeted, leaving a portion available for contingencies. He explains that the increase is due to the fact that the construction contract included a number of items that, although required, were not covered by the architectural competition. This resulted in an expanded scope of the professional services required. He indicates that, in order to obtain the detailed documents requested, a formal access-to-information request must be submitted to the municipal City Clerk’s office.

A resident asks why the additional charges for professional fees for the cultural centre (agenda items 20.5 and 20.6) are required.

Mayor St-Jean answers that the scope increased, and fees are calculated according to recognized guidelines.

A resident questions why some roads are only patched year after year and why more paving is not done.

Mayor St-Jean explains roadwork priorities are assessed annually by the administration using an established system and that Council does not

Minutes of the Council of Beaconsfield

decide which streets are resurfaced, to avoid favoritism. He notes the resurfacing budget has increased significantly (e.g., from about \$1.4M to \$1.8M) and that roughly 4% of the road network is resurfaced each year, with provisions for emergency repairs.

A resident provides written comments: prioritizing humane rodent control methods (no poison, no glue traps), opposing the 111 St-Andrew project or limiting its size, and other related comments.

Mr. Mayor St-Jean thanks the resident for her comments and notes the 111 St-Andrew item will be addressed later in the agenda.

The question period ends at 8:18 p.m.
